

panacea consultancy services

Panacea's Professional Services team is responsible for scoping and delivering successful projects for our customers. How do we do it?

Proven Project Methodology

With more than four hundred supported customers, over twenty years experience of solutions delivery and well over one thousand successful projects under our belt, we believe that you will be hard pressed to find an IT solutions provider better placed to scope, deliver and maintain your IT investments.

If you'd like some advice before you commit funds to your next IT project or if you feel that your current provider lacks the breadth of skills necessary to drive business change through IT investment then please call Panacea.

We're confident that just one meeting with one of our senior consultants will be enough to impress you. And if we're right then you have everything to gain and little to lose in allocating time for that one meeting.

- ◀▶ Our senior staff have genuine business skills. They have come from business roles and have been involved in hundreds of implementations across many business sectors. The chances are that they can use this hard-won knowledge to add value to your business.
- ◀▶ Our staff are qualified IT people. Panacea has some of the highest levels of accreditation with each of our key business partners. In order to maintain these accreditations our staff have to be qualified across a range of technologies. And they have to remain qualified as new technologies are brought to the market. You can be sure that our consultants will know how to convert business objectives into the best IT solution for your organisation.
- ◀▶ Our breadth of skills enables us to deliver every element of your project. To budget. To deadlines. To quality. Every time.
- ◀▶ We work to a proven project methodology. Firstly we understand your business drivers then we apply our expertise to design and implement an end-to-end IT solution that exactly meets your needs.
- ◀▶ We support and maintain everything that we deliver. That means that we have a strong incentive to get the delivery right first time. But once the project has been signed off our comprehensive managed services continue to guarantee your investment's ongoing success.
