Who are Panacea?

Panacea Holdings Limited is a highly successful IT Business Solutions Provider offering systems integration and outsourced IT services in support of mission critical applications and infrastructure for SMEs and corporates.

The Company has a significant investment in quality IT skills and service provision (ISO9000 accredited) and has consistently built upon a strategy of professional expertise, contract managed support services and long term client relationships.

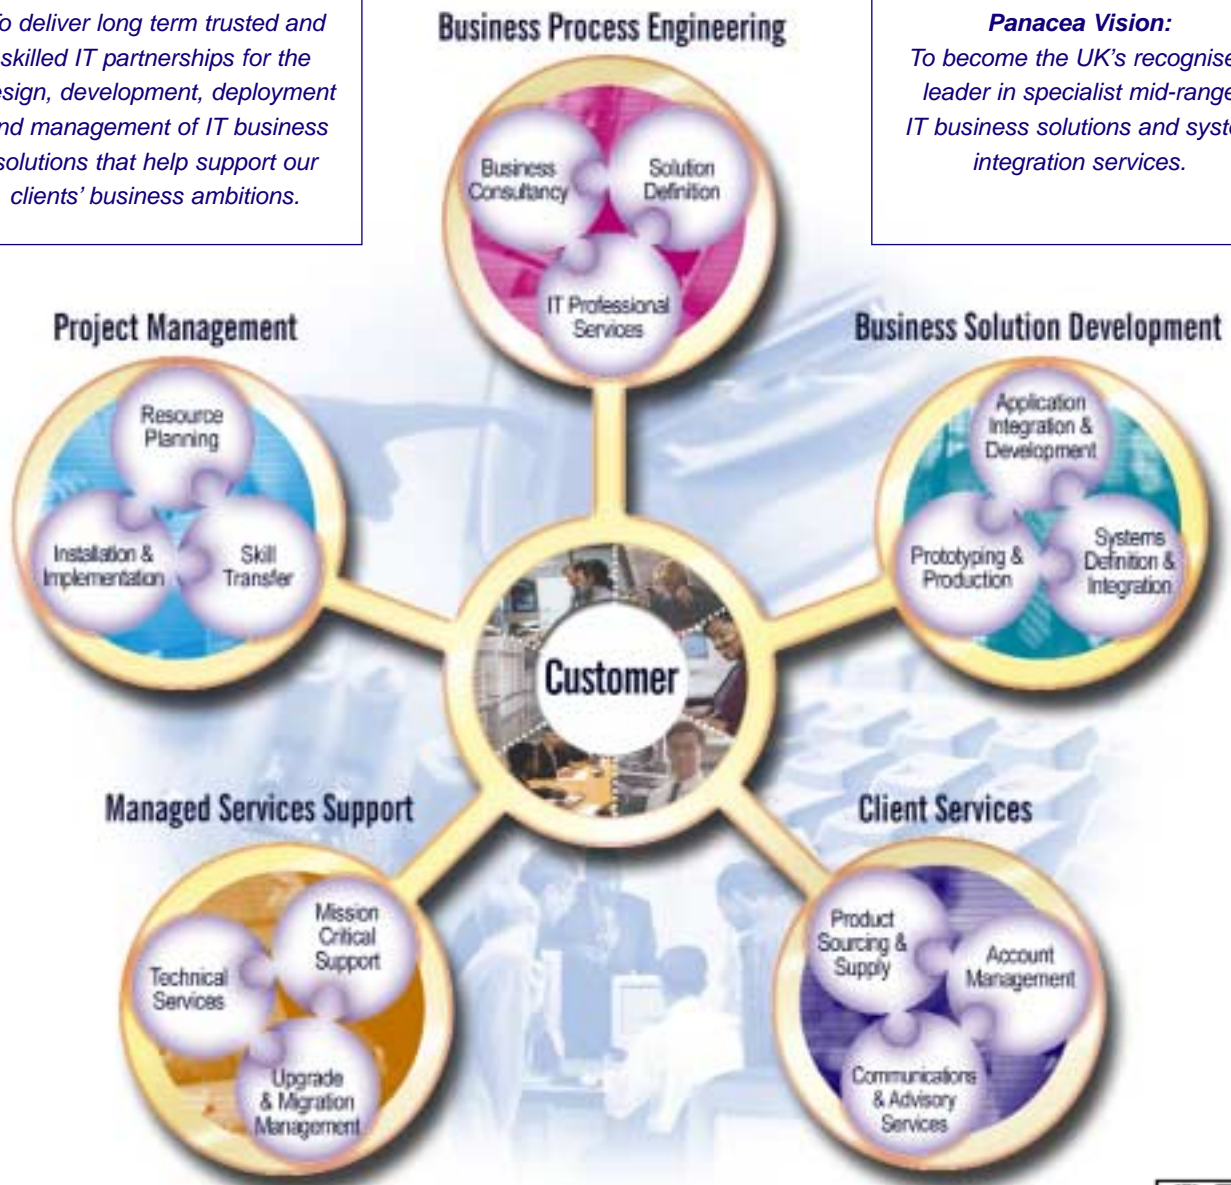

Today, Panacea has sales of £18m represented across six principal lines of business with the ability to address clients requirements from strategic consultancy, project definition, development and deployment, and comprehensive value added services. The company has a track record of good growth and sound financial management with significant account retention and great commitment to customer care. Panacea currently employs around 130 staff over 3 locations with approximately 750 active business customers.

Panacea Mission Statement:

To deliver long term trusted and skilled IT partnerships for the design, development, deployment and management of IT business solutions that help support our clients' business ambitions.

Panacea Vision:

To become the UK's recognised leader in specialist mid-range IT business solutions and system integration services.
